For your SATs  
**YEAR 6**

This term in history we will be studying WW2, and learning about what life was like during the blitz.

We will be covering the topic of animals and humans in science lessons, where we will learn about the circulatory system, the function of the blood and the effects of drugs on the body.

We will also begin to think about the transition from Primary School to Secondary School, in order to ensure that all of our pupils are well prepared for their new educational venture.

Homework is a huge part of this transition, as pupils will start to be given larger quantities at high school. It is therefore essential that they continue to complete our homework to a high standard and hand it in on time each week.

Parents please ensure that you are checking your child's planners regularly and are signing them to say that you have heard your child read at least 3 x a week.

Thank you for your continued support.
